

# SURGE PROTECTION FOR UTILITY NETWORKS

Reliable Performance. Comprehensive Options.

# SUPPLY RELIABILITY AND POWER QUALITY

Surge protection requirements for the utility industry are intricate and evolving, each requiring a variety of protection levels based on unique applications. From advanced metering infrastructure (AMI) to Smart Grid delivery systems, the requirement for service reliability and power quality is paramount.

As leaders in RF, AC, DC and data line surge protection, PolyPhaser and Transtector are well versed in the specific challenges, requirements and standards necessary for utility operability.

PRODUCT	DESCRIPTION	FEATURES	OPTIONS
<b>RF Filters</b>	Patented RF surge protectors for coax-fed radios	<ul style="list-style-type: none"> <li>• Bidirectional functionality</li> <li>• High surge handling capacity</li> <li>• Low insertion loss</li> </ul>	<ul style="list-style-type: none"> <li>• DC block</li> <li>• DC pass</li> <li>• Inductor-based technology</li> <li>• Hybrid protection circuits</li> </ul>
<b>AC Protectors</b>	Surge protection for cases, cabinets, signal and facilities	<ul style="list-style-type: none"> <li>• Reliable MOV, gas tube and silicon technologies</li> <li>• Designed to global standards</li> </ul>	<ul style="list-style-type: none"> <li>• Thermal protection</li> <li>• Replaceable modules</li> <li>• Remote monitoring</li> </ul>
<b>DC Protectors</b>	Engineered for high-level site power performance without compromise	<ul style="list-style-type: none"> <li>• DIN Rail mounting</li> <li>• Low turn-on</li> <li>• Repetitive strike capacity</li> </ul>	<ul style="list-style-type: none"> <li>• Modular design</li> <li>• Remote monitoring</li> <li>• Thermal protection</li> </ul>
<b>Data Protectors</b>	Designed for low-voltage signal circuits to high-speed power over Ethernet applications	<ul style="list-style-type: none"> <li>• Silicon and hybrid technology</li> <li>• Available individually or as complete kits</li> </ul>	<ul style="list-style-type: none"> <li>• Indoor</li> <li>• Outdoor</li> <li>• Rack-mount</li> <li>• DIN Rail-mount</li> </ul>
<b>EMP HEMP-Tested Surge Protection</b>	Protect critical electronic and power systems from the effects of electromagnetic pulse and interference	<ul style="list-style-type: none"> <li>• Fast response time</li> <li>• Ruggedized construction for EMP and HEMP protection</li> </ul>	<ul style="list-style-type: none"> <li>• RF</li> <li>• AC</li> <li>• DC</li> <li>• Data line</li> </ul>
<b>NEMA Enclosures</b>	Configurable NEMA-rated enclosures for harsh environments	<ul style="list-style-type: none"> <li>• Rugged and lightweight</li> <li>• Broad range of configurations</li> <li>• Pre-configured options for a variety of application</li> </ul>	<ul style="list-style-type: none"> <li>• Heating and cooling</li> <li>• AC, DC or PoE feeds</li> <li>• Fiberglass polyester</li> <li>• NEMA 4 or 3R</li> </ul>

# GLOBAL UTILITY NETWORKS

Meeting the global requirements of our utility customers is paramount to creating highly satisfied customers. We offer a wide range of products and services to meet the needs of global networks.

- **E-Commerce** - Online ordering is easy through both [polyphaser.com](http://polyphaser.com) and [transtector.com](http://transtector.com), where we provide quality surge protection products, 24/7 online chat, and a commitment to in-stock availability.
- **Same-Day Shipping** - For mission-critical product shipments that require immediate delivery within the shortest available time frame, we offer dependable same-day shipping.
- **Technical Support** - Global engineering service teams well versed in protection requirements essential for remote monitoring, smart grid operation, power generation and AMI communications.

Surge protection and equipment enclosure solutions from PolyPhaser and Transtector Systems enhance network performance and reliability, with innovative products engineered for today's growing markets. Contact us at +1 (208) 635-6400 or visit us online at [polyphaser.com](http://polyphaser.com) and [transtector.com](http://transtector.com).

Power Plant

4 7 8

Data Center

4 7 8

AMI-Smart Metering

1

### 1 RF Protection – DGXZ Series

DC Pass arrestor engineered for 800 MHz to 2500 MHz

### 2 DC Protection – DC Defender

Superior SASD surge technology for 48 Vdc outdoor applications

### 3 DC Protection – I2R IEP Series

Modular DIN Rail 24 & 48 Vdc single mode SASD protection

### 4 Data Line – CPX Series

Modular, Ethernet and GbE surge protector scalable to 16 ports

### 5 Data Line – ALPU Series

Protects GbE, PoE+ and GbE, PoE++ networks, for indoor and outdoor applications

### 6 Data Line – DPR Series

Multi-protocol equipment protector offers GT, SASD and hybrid technology

### 7 EMP-HEMP Tested – APEX IMAX HT Series

AC EMP surge protection options for 120/208, 120/240 and 120 Vac applications

### 8 AC Protection – SP Plus

Reliable MOV technology supporting voltages from 120 Vac to 600 Vac

### 9 NEMA Enclosures

Configurable indoor and outdoor NEMA enclosures and accessories
